VATICAN FILESS

Avid Readers Publishing Group. Paperback. Book Condition: New. Paperback. 396 pages. Dimensions: 8.3in. x 5.5in. x 1.1in. As World War two drew to an end, there were in excess of seven hundred million ounces of gold in Fort Knox. This represented seventy-five percent of the worlds gold inventory. Today there is no record of the amount of gold in the National Depository. A physical annual audit is federal law, but to the present day the treasury refuses to conduct one. In fact, an audit has not been conducted since 1953 not since ordered by President Eisenhower. Vatican FileSS addresses the question - where is the missing bullion from Fort Knox Common belief is that by the end of 1971, President Johnson consented to the Fort Knox gold being secretly removed and drained to London, supposedly to finance the war in Vietnam. In 1982, President Ronald Regan appointed a group of men known as the Gold Commission. Their task - to report to Congress on the gold reserve. The following is their final report to Congress. The U. S. treasury possesses no gold. The Federal Reserve now owns all of the gold that was left in Fort Knox, holding it against the national debt. This money has been stolen from the American citizens and placed into the hands of a small group of private investors in the Federal Reserve, the money changers. A subsequent visit by world media was merely a staged event for the cameras. The strong belief is that the rear stacks within the vaults were nothing more than plated silver bullion. Vatican FileSS takes the reader on a thought provoking journey that explores the origin of Nazi and Ustasha gold hoards. It exposes the ruthless killings by Ustasha Catholic priests in their routing of gold to Romes Vatican, as...
