Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

THE AGE OF CAPITAL: 1848-1875

Little, Brown Book Group, United Kingdom, 1988. Paperback. Book Condition: New. Repr.. 196 x 126 mm. Language: English . Brand New Book. The first and best, major treatment of the crucial years 1848-1875, a penetrating analysis of the rise of capitalism through the world. In the 1860s a new word entered the economic and political vocabulary of the world: capitalism . The global triumph of capitalism is the major theme of history in the decades after 1848. It was the triumph of a society which believed that economic growth rests on competitive private enterprise, on success in buying everything in the cheapest market (including labour) and selling it in the dearest. An economy so based, and therefore nestling naturally on the sound foundations of a bourgeoisie composed of those whom energy, merit and intelligence had raised to their position and kept there, would - it was believed - not only create a world of suitably distributed material plenty but of ever-growing enlightenment, reason and human opportunity, an advance of the sciences and the arts, in brief a world of continuous and accelerating material and moral progress.
