This item is printed on demand - Print on Demand Neuware - Essay from the year 2011 in the subject Art - Photography and Film, grade: 62, University of Westminster (Media, Arts and Design), course: Contemporary Photographic Practices, language: English, abstract: In 1964 Pop artist Andy Warhol started to take his 'Screen Tests', short portrait films of his colleagues and friends who visited him in his famous studio, the 'Factory' in New York. Today, more than forty years after the last test was taken, fascination with the films still motivates people to look at them in exhibitions and books. They still catch us with their complex character as time witnesses and social documents, combined with a strong effect as extraordinarily personal pieces of art. In the following essay, I will illustrate in which way these complex films and their meanings are shaped in different contexts of representation: installed in an exhibition and printed in book form. At first when dealing with this question, it needs to be clear what the Screen Tests are: The films are not screen tests in the conventional sense of the word. The term...
