Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from *Makers of the Bible: And Their Literary Methods* This little manual is intended for young people and others who may desire some information from the modern point of view about the processes through which the Bible has come down to us today. The author hopes by it to help his readers to an intelligent comprehension of how the Bible has come to be what it is and so to a sound basis for faith in the Book of Life. The work has grown out of experience in college classroom and teacher-training classes in church and Sunday school. It is designed to serve two purposes: (1) The book may be used as a guide for independent study. Those who so use it will work through the outlines by means of the references and some of the briefer articles listed before reading the discussions in the following chapters. For this study a copy of the American Standard Version (with references) should be used, as the marginal notes and variations in this edition of the Bible are of great value. (2) The book may be read as a narrative, without regard to the study outlines and helps, and so become simply a brief story of the making of our Bible.
