

Office of Inspector General Audit Report: Report on Terminal Modernization: FAA Needs to Address Its Small, Medium, and Large Sites Based on Cost, Time, and Capability: Project Id: AV-2005-016

By -

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This report presents the results of our review of the Federal Aviation Administration s (FAA) Standard Terminal Automation Replacement System (STARS) program. Since 1996, STARS has been the centerpiece of FAA s Terminal Modernization Program to replace 1970s-era computer systems and aging controller displays. STARS provides radar and flight data to air traffic controllers at FAA s terminal air traffic control sites. Air traffic passes through three distinct control environments. At the airport, the Tower has control. After take-off, control shifts to the Terminal Radar Approach Control (TRACON). Finally, en route centers control aircraft at higher altitudes between airports. STARS was designed to provide data to TRACON sites and their associated towers.

Reviews

Most of these publication is the perfect ebook accessible. It is amongst the most awesome publication i have got read through. You wont truly feel monotony at whenever you want of the time (that's what catalogs are for regarding in the event you request me).

-- **Prof. Edgar Kshlerin**

It is easy in study safer to comprehend. It can be writter in basic phrases and never confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.
